

Child Welfare Agency Spending in Arizona in SFY 2024

Child welfare agencies across the United States are charged with protecting and promoting the welfare of children and youth who are at risk of, or have been victims of, maltreatment. State and local child welfare agencies rely on multiple funding streams to administer programs and services. While many funding sources are available to child welfare agencies, each source has its unique purposes, eligibility requirements, and limitations, creating a complex financing structure that is challenging to understand and administer. Each state's unique funding composition impacts the services available to children and families and the way in which child welfare agencies operate.

This document presents information on child welfare agency expenditures in Arizona for SFY 2024¹ collected through Child Trends' national survey of child welfare agency expenditures. All dollar amounts have been inflated to 2024 levels.

Other available resources

This document is one of many child welfare financing resources available on the Child Trends website, including a summary of national findings and detailed information on the following funding sources used by child welfare agencies:

- Title IV-E
- Title IV-B
- Temporary Assistance for Needy Families
- Social Services Block Grant
- Medicaid
- Other federal funds
- State and local funds

Children With Child Welfare Agency Contact

Since SFY 2022, the number of children in Arizona who received an investigation or alternative response,² or were served in foster care,³ has decreased.

Total Expenditures

Arizona's total child welfare agency spending⁴ increased from SFY 2014 to 2024 but decreased slightly since SFY 2022.

	Amount in SFY 2024	% change since...	
		Last survey (SFY 2022)	10 years ago (SFY 2014)
Overall	\$1,065,870,372	-3%	34%
Federal	\$560,157,792	-18%	15%
State	\$494,008,986	19%	59%
Local	\$7,906,440	219%	NEW
Other ⁵	\$3,797,154	-28%	N/A

Note: N/A indicates a comparison could not be made because comparable data are not available. NEW indicates that the funding source was not used in the earlier of the two years being compared.

Arizona Insights

The decrease in spending of “other” funds is due to a decrease in the use of child benefits. The child welfare agency now conserves child benefits for the child instead of using the funds to offset child welfare agency costs.

The state's proportion of spending from federal, state, and local sources has changed since SFY 2022. In SFY 2024, a smaller proportion of total expenditures was financed by federal sources.

Federal Expenditures

Title IV-E

Total in SFY 2024: \$319,798,488

Change from SFY 2022: -4%

Title IV-E of the Social Security Act⁶ can be used for foster care, adoption, guardianship, prevention, kinship

navigation, and supports for transition-age youth (Chafee and Education and Training Vouchers). Arizona's Title IV-E Prevention Plan was approved in 2023.⁷

Among these services and activities, in SFY 2024, foster care and Funding Certainty Grant expenditures increased, while adoption and Chafee/ETV expenditures decreased compared to SFY 2022.

Arizona Insights

Arizona indicated that the following factors have influenced its Title IV-E expenditures in recent years:

- Title IV-E Foster Care Program expenditures increased because of information system costs and an increased number of staff.
- Chafee/ETV expenditures decreased because the enhanced pandemic-relief funding for the programs ended.
- Funding Certainty Grant expenditures increased due, in part, to spending on non-medical youth transportation and IT operational costs.

Title IV-E	2020	2022	2024
Foster Care Program	\$157,950,562	\$127,876,705	\$139,066,518
Adoption Assistance Program	\$200,252,782	\$183,870,271	\$165,354,526
Guardianship Assistance Program	\$0	\$0	\$0
Chafee Program and ETVs	\$7,799,763	\$11,284,686	\$7,654,817
Waiver	\$8,136,191	N/A	N/A
Prevention Program	\$0	\$0	\$0
Kinship Navigator Program	\$236,197	\$0	Missing
Funding Certainty Grants	\$0	\$28,620	\$7,722,627

Note: N/A means the program did not exist in that year.

Title IV-B

Total in SFY 2024: \$12,827,137

Change from SFY 2022: 5%

Title IV-B⁸ of the Social Security Act can be used for child welfare services, such as preventing maltreatment, family preservation, family reunification, services for foster and adopted children, and training for child welfare professionals. The funds reported on the survey are only those spent by child welfare agencies.

Medicaid

Total in SFY 2024: \$3,623,833

Change from SFY 2022: NEW

Medicaid⁹ covers health-related services for millions of low-income individuals. Children eligible for Title IV-E foster care, adoption, or guardianship programs are automatically eligible for Medicaid. Child welfare agencies use Medicaid for treatment portions of child welfare programs, targeted case management, and services for children in treatment or therapeutic foster homes. Note: The amount reported here captures only Medicaid expenditures by child welfare agencies; it does not reflect the state's total Medicaid spending. This means that the Medicaid expenditures reported on this survey do not reflect the total amount of Medicaid funding used to support children involved with the child welfare system. Instead, the expenditures reported on this survey are only those Medicaid dollars that child welfare agencies use directly.

Social Services Block Grant

Total in SFY 2024: \$32,095,702

Change from SFY 2022: -17%

The Social Services Block Grant (SSBG) is a flexible source of federal funds that child welfare agencies can use to promote self-sufficiency, prevent or remedy child maltreatment, reduce inappropriate use of institutional care, and more.¹⁰

Temporary Assistance for Needy Families

Total in SFY 2024: \$139,919,179

Change from SFY 2022: -4%

In addition to providing cash assistance to low-income families, Temporary Assistance for Needy Families (TANF) can also be used to support a variety of child welfare activities. TANF allows states to be flexible in using funding to support children involved in the child welfare system.

Other Federal Funds

Total in SFY 2024: \$51,893,453

Change from SFY 2022: -66%

In addition to the major federal sources, child welfare agencies use other federal funding streams, including:

Other Federal Funds	SFY 2024 expenditures	Percent of total
Child Abuse Prevention and Treatment Act (CAPTA) ¹¹	\$2,511,780	5%
Community-Based Child Abuse Prevention (CBCAP) grants ¹²	\$3,227,752	6%
Children's Justice Act ¹³	\$0	0%
Adoption Opportunities ¹⁴	\$0	0%
Adoption and Legal Guardianship Incentive Payments ¹⁵	\$2,437,710	5%
Maternal, Infant, and Early Childhood Home Visiting ¹⁶	\$2,244,716	4%
Family First Transition Act grants ¹⁷	\$2,245,110	4%
Coronavirus State and Local Fiscal Recovery Funds (ARPA) ¹⁸	\$0	0%
Other	\$39,226,385	76%

Arizona Insights

Arizona experienced a decrease in the expenditure of other federal funds because of the expiration of several pandemic-relief funding streams.

State and Local Expenditures

State and local funds are used to meet non-federal cost-sharing requirements (“match”) for some federal sources, to meet a maintenance of effort requirement for a federal program, and to pay for costs that federal funds do not cover.

Arizona Insights

Arizona experienced an increase in the expenditure of state funds due to implementation of a new program to support kinship caregivers, IT system maintenance and operations, and an increased number of staff. Local expenditures increased because funding for a home visiting program was shifted from a state to a local funding source.

Use of Funds

More than half of Arizona's federal and state/local expenditures are used for out-of-home placements.^{19,20}

Over the past decade, Arizona’s estimated child welfare agency spending on out-of-home placements has decreased while the state’s estimated child welfare agency spending on preventive services increased.²¹

³ "Served in foster care" refers to the "estimated count of all children who were in the public foster care system during the Federal Fiscal Year (FFY). This number is the sum of two mutually exclusive groups of children: the children who are already in care on the first day of the fiscal year (as of October 1) and the children who enter foster care during the year. An individual child is counted only once for each year."

⁴ The survey instrument has been revised over time, so some data are not directly comparable.

To enable comparisons, all dollar amounts from previous years have been inflated to 2024 levels using the gross domestic product deflator (accessed at www.measuringworth.com/uscompare/).

When comparing two or more years, we conducted the analysis only if the state had comparable data in both years.

⁵ "Other" includes child benefits and family income used as offsets, third-party in-kind contributions, and private dollars.

⁶ For SFY 2024, Arizona was unable to report third-party in-kind contributions, private dollars, and some sub-categories of child benefits and family income so its "other" and total expenditures may be understated.

(2024). *Title IV-E Programs Expenditure and Caseload Data 2023*. Available at: <https://acf.gov/cb/report/programs-expenditure-caseload-data-2023>

U.S. Department of Health and Human Services, Administration for Children and Families, Administration on Children, Youth and Families, Children's Bureau. (2025). *Status of Submitted Title IV-E Prevention Program Five-Year Plans*. Available at: <https://acf.gov/cb/data/status-submitted-title-iv-e-prevention-program-five-year-plans>

For SFY 2024, Title IV-E Kinship Navigator program expenditures may be included in the Title IV-E Foster Care program expenditure amount, however the authors were unable to confirm this with the state.

⁸ For this survey, states were asked to report their child welfare agency's(ies') total federal Title IV-B expenditures for child welfare services/activities. They were told to exclude any Title IV-B dollars expended by non-profits, courts, or other entities in the state unless the funds flowed through the state/local child welfare agency to the outside entity and were spent on child welfare services/activities. Thus, because some Title IV-B dollars may have gone directly to, and been spent by, these outside entities, the total reported here may not represent the state's total Title IV-B expenditures.

⁹ For the survey, researchers asked states to report only Medicaid funds that covered costs borne by the child welfare agency and/or for which the child welfare agency paid the nonfederal match. It excludes Medicaid-funded costs for the child welfare population borne by any other agencies (e.g., the health department) unless the child welfare agency paid the nonfederal match and so excludes costs associated with healthcare coverage. It should be acknowledged, therefore, that this understates (by a significant, yet indeterminate, amount) the degree to which Medicaid supports children involved with the child welfare system and child welfare activities overall in the United States. Additional Medicaid funds may be used by the state health department to provide healthcare to children involved in child welfare, the majority of whom are eligible for Medicaid.

¹⁰ These amounts include funds transferred from TANF to SSBG.

¹¹ CAPTA provides formula grants to states to improve child protective services. It also provides funding aimed at child maltreatment prevention, assessment, and treatment.

¹² CBCAP, which is a part of CAPTA, provides formula grants to states for child abuse prevention work carried out by community-based organizations.

¹³ The Children's Justice Act provides formula grants to eligible states from the national Crime Victims Fund to support improvements in investigating and prosecuting child maltreatment cases.

¹⁴ The Adoption Opportunities program provides competitive grants to states and other entities to promote adoption, remove barriers to adoption, provide post-adoption support to families, and provide other related activities.

¹⁵ Adoption and Legal Guardianship Incentive Payments provide incentive payments to states to encourage more adoptions and legal guardianships from foster care. Incentive payments are provided when a state improves its rate of adoptions and guardianships (in general and for older children).

¹⁶ MIECHV provides formula funds and competitive grants to fund home visiting programs to help improve outcomes for at-risk children. Some home visiting models can help reduce child abuse and neglect and promote the healthy development of children.

¹⁷ FFTA was signed in 2019 to help states during the early implementation of the Family First Act. The law provides \$500 million in one-time funding that could be spent by states (1) on any allowable Title IV-B activities, (2) to support implementation of the Family First Prevention Services Act, and (3) for former Title IV-E waiver states on activities formerly approved under their waiver.

¹⁸ Coronavirus State and Local Fiscal Recovery Funds are funds available to state, local, territorial, and Tribal governments through the American Rescue Plan Act (ARPA) of 2021.

¹⁹ Most states, including Arizona, were able to provide only approximations for how their funds were spent. Totals may not equal 100% due to rounding.

²⁰ Most states, including Arizona, were able to provide only approximations for how their funds were spent. Totals may not equal 100% due to rounding.

²¹ The amount for SFY 2014 is missing because the state was unable to report how it used its funds that year.
