

Foster Care

Arizona

Children are placed in foster care when a child protective services worker and court have determined that it is not safe for them to remain in their home. This decision should not be taken lightly: Separation from parents and disruptions from usual routines and familiar surroundings are traumatic for children. Children in foster care need strong relationships with caring adults, a network of social support, and services to cope with the challenging circumstances of family separation.

Entering foster care

- Dataset #235, AFCARS Foster Care File FY2018, Version 3
- Dataset #239, AFCARS Foster Care File FY2019, Version 2
- Dataset #255, AFCARS Foster Care File FY2020
- Dataset #274, AFCARS Foster Care FY2021; Dataset #275, AFCARS Adoption FY2021

Notes

¹All figures related to entering foster care include children from birth to age 17 who entered care during the FFY.

²All rates are calculated using general child population data from the U. S. Census Bureau from 2018, 2019, 2020, and 2021 which are publicly available on the U.S. Census Bureau website.

³If a child is determined to be of Hispanic origin, they are only counted as Hispanic and are not included in any other racial/ethnic categories. Data for the general child population under age 20 in 2021 are from the U. S. Census Bureau which are publicly available on the U.S. Census Bureau website.

⁴For children entering care in FFY 2021. Other entry reasons include drug or alcohol abuse by the child, child's disability, relinquishment, and parental death. Total may exceed 100 percent because children could have more than one entry reason.

⁵All figures related to children currently in care include children from birth to age 20 in foster care on the last day of the FFY.

⁶All rates are calculated using general child population data (birth to age 20) from the U. S. Census Bureau from 2018, 2019, 2020, and 2021 which are publicly available on the U.S. Census Bureau website.

⁷Average number of times children were removed from the home, including the most recent removal.

⁸Length of stay in care is calculated based on the current removal episode.

⁹Current placement setting as of September 30, 2021. Other placement types include pre-adoptive home, runaway, supervised independent living, and trial home visit.

¹⁰All figures related to exits from care include children from birth to age 20 exiting care during the FFY.

¹¹All rates are calculated using general child population data (birth to age 20) from the U. S. Census Bureau from 2018, 2019, 2020, and 2021 which are publicly available on the U.S. Census Bureau website.

¹²Includes children birth to age 17 that entered foster care in FFY 2021 and exited in less than 30 days.
