

Child Welfare Agency Spending in Idaho in SFY 2024

Child welfare agencies across the United States are charged with protecting and promoting the welfare of children and youth who are at risk of, or have been victims of, maltreatment. State and local child welfare agencies rely on multiple funding streams to administer programs and services. While many funding sources are available to child welfare agencies, each source has its unique purposes, eligibility requirements, and limitations, creating a complex financing structure that is challenging to understand and administer. Each state's unique funding composition impacts the services available to children and families and the way in which child welfare agencies operate.

This document presents information on child welfare agency expenditures in Idaho for SFY 2024¹ collected through Child Trends' national survey of child welfare agency expenditures. All dollar amounts have been inflated to 2024 levels.

Other available resources

This document is one of many child welfare financing resources available on the Child Trends website, including a summary of national findings and detailed information on the following funding sources used by child welfare agencies:

- Title IV-E
- Title IV-B
- Temporary Assistance for Needy Families
- Social Services Block Grant
- Medicaid
- Other federal funds
- State and local funds

Children With Child Welfare Agency Contact

Since SFY 2022, the number of children in Idaho who received an investigation or alternative response² has increased while the number served in foster care³ has decreased.

Total Expenditures

	Amount in SFY 2024	% change since...	
		Last survey (SFY 2022)	10 years ago (SFY 2014)
Overall	\$88,305,131	N/A	N/A
Federal	\$49,430,572	N/A	N/A
State	\$36,627,872	19%	50%
Local	\$56,255	-67%	-72%
Other ⁴	\$2,190,432	63%	N/A

Note: N/A indicates a comparison could not be made because comparable data are not available.

Idaho Insights

Idaho indicated that the increase in spending of "other" funds is due to an increase in residential care costs.

Federal Expenditures

Title IV-E

Total in SFY 2024: \$29,825,131

Change from SFY 2022: 13%

Title IV-E of the Social Security Act⁵ can be used for foster care, adoption, guardianship, prevention, kinship navigation, and supports for transition-age youth (Chafee and Education and Training Vouchers). Idaho's Title IV-E Prevention Plan was approved in 2023.⁶

Among these services and activities, in SFY 2024, there were increased expenditures across most programs compared to SFY 2022.

Title IV-E	2020	2022	2024
Foster Care Program	\$23,847,955	\$13,892,173	\$14,903,756
Adoption Assistance Program	\$12,097,569	\$12,122,334	\$14,094,455
Guardianship Assistance Program	\$59,250	\$104,208	\$128,047
Chafee Program and ETVs	\$893,281	\$298,937	\$564,417
Waiver	\$0	N/A	N/A
Prevention Program	\$0	Missing	Missing
Kinship Navigator Program	Missing	\$33,345	\$134,456
Funding Certainty Grants	Missing	\$0	\$0

Note: N/A means the program did not exist in that year.

Idaho Insights

Idaho indicated that it experienced an increase in Title IV-E Guardianship Assistance Program expenditures due to an increase in the population served.

Title IV-B

Total in SFY 2024: \$3,075,218

Change from SFY 2022: -30%

Title IV-B⁷ of the Social Security Act can be used for child welfare services, such as preventing maltreatment, family preservation, family reunification, services for foster and adopted children, and training for child welfare professionals. The funds reported on the survey are only those spent by child welfare agencies.

Medicaid

Total in SFY 2024: Missing

Change from SFY 2022: N/A

Medicaid⁸ covers health-related services for millions of low-income individuals. Children eligible for Title IV-E foster care, adoption, or guardianship programs are automatically eligible for Medicaid. Child welfare agencies use Medicaid for treatment portions of child welfare programs, targeted case management, and services for children in treatment or therapeutic foster homes. Note: The amount reported here captures only Medicaid expenditures by child welfare agencies; it does not reflect the state's total Medicaid spending. This means that the Medicaid expenditures reported on this survey do not reflect the total amount of Medicaid funding used to support children involved with the child welfare system. Instead, the expenditures reported on this survey are only those Medicaid dollars that child welfare agencies use directly.

Social Services Block Grant

Total in SFY 2024: \$8,663,343

Change from SFY 2022: 8%

The Social Services Block Grant (SSBG)⁹ is a flexible source of federal funds that child welfare agencies can use to promote self-sufficiency, prevent or remedy child maltreatment, reduce inappropriate use of institutional care, and more.¹⁰

Temporary Assistance for Needy Families

Total in SFY 2024: \$5,831,847

Change from SFY 2022: 71%

In addition to providing cash assistance to low-income families, Temporary Assistance for Needy Families (TANF)¹¹ can also be used to support a variety of child welfare activities. TANF allows states to be flexible in using funding to support children involved in the child welfare system.

Other Federal Funds

Total in SFY 2024: \$2,035,033

Change from SFY 2022: -27%

In addition to the major federal sources, child welfare agencies use other federal funding streams,¹² including:

Other Federal Funds	SFY 2024 expenditures	Percent of total
Child Abuse Prevention and Treatment Act (CAPTA) ¹³	\$514,632	25%
Community-Based Child Abuse Prevention (CBCAP) grants ¹⁴	\$228,027	11%
Children’s Justice Act ¹⁵	\$140,494	7%
Adoption Opportunities ¹⁶	\$0	0%
Adoption and Legal Guardianship Incentive Payments ¹⁷	\$620,892	31%
Maternal, Infant, and Early Childhood Home Visiting ¹⁸	\$0	0%
Family First Transition Act grants ¹⁹	\$36,252	2%
Coronavirus State and Local Fiscal Recovery Funds (ARPA) ²⁰	\$494,736	24%
Other	\$0	0%

State and Local Expenditures

State and local funds²¹ are used to meet non-federal cost-sharing requirements (“match”) for some federal sources, to meet a maintenance of effort requirement for a federal program, and to pay for costs that federal funds do not cover.

Use of Funds

More than half of Idaho's federal and state/local expenditures are used for out-of-home placements.^{22,23}

³ "Served in foster care" refers to the "estimated count of all children who were in the public foster care system during the Federal Fiscal Year (FFY). This number is the sum of two mutually exclusive groups of children: the children who are already in care on the first day of the fiscal year (as of October 1) and the children who enter foster care during the year. An individual child is counted only once for each year."

⁴ "Other" includes child benefits and family income used as offsets, third-party in-kind contributions, and private dollars.

⁵ For SFY 2024, Idaho was unable to report expenditures for the Title IV-E Prevention Program, Medicaid, third-party in-kind contributions, and private funds, so its "other," federal, and total expenditures may be understated. The total expenditure amounts for SFYs 2018, 2020, and 2022 are missing because the state was unable to report expenditures for at least one of the major funding streams those years.

⁶ National Conference of State Legislatures. (2026). *Family First State Plans and Enacted Legislation*. Available at: <https://www.ncsl.org/human-services/family-first-state-plans-and-enacted-legislation>

(2024). *Title IV-E Programs Expenditure and Caseload Data 2023*. Available at: <https://acf.gov/cb/report/programs-expenditure-caseload-data-2023>

U.S. Department of Health and Human Services, Administration for Children and Families, Administration on Children, Youth and Families, Children's Bureau. (2025). *Status of Submitted Title IV-E Prevention Program Five-Year Plans*. Available at: <https://acf.gov/cb/data/status-submitted-title-iv-e-prevention-program-five-year-plans>

For SFYs 2022 and 2024, Idaho was unable to report Title IV-E Prevention Services Program expenditures, so total Title IV-E expenditures may be understated. Idaho did not participate in the SFYs 2018 and 2020 surveys, so their expenditure data for those years are missing.

⁷ For this survey, states were asked to report their child welfare agency's(ies') total federal Title IV-B expenditures for child welfare services/activities. They were told to exclude any Title IV-B dollars expended by non-profits, courts, or other entities in the state unless the funds flowed through the state/local child welfare agency to the outside entity and were spent on child welfare services/activities. Thus, because some Title IV-B dollars may have gone directly to,

and been spent by, these outside entities, the total reported here may not represent the state's total Title IV-B expenditures.

Idaho did not participate in the SFYs 2018 and 2020 surveys, so their expenditure data for those years are missing.

⁸ For the survey, researchers asked states to report only Medicaid funds that covered costs borne by the child welfare agency and/or for which the child welfare agency paid the nonfederal match. It excludes Medicaid-funded costs for the child welfare population borne by any other agencies (e.g., the health department) unless the child welfare agency paid the nonfederal match and so excludes costs associated with healthcare coverage. It should be acknowledged, therefore, that this understates (by a significant, yet indeterminate, amount) the degree to which Medicaid supports children involved with the child welfare system and child welfare activities overall in the United States. Additional Medicaid funds may be used by the state health department to provide healthcare to children involved in child welfare, the majority of whom are eligible for Medicaid.

The state was unable to report Medicaid expenditures for SFYs 2022 and 2024. In addition, Idaho did not participate in the SFYs 2018 and 2020 surveys, so their expenditure data for those years are missing.

⁹ Idaho did not participate in the SFYs 2018 and 2020 surveys, so their expenditure data for those years are missing.

¹⁰ These amounts include funds transferred from TANF to SSBG.

¹¹ Idaho did not participate in the SFYs 2018 and 2020 surveys, so their expenditure data for those years are missing.

¹² Idaho did not participate in the SFYs 2018 and 2020 surveys, so their expenditure data for those years are missing.

¹³ CAPTA provides formula grants to states to improve child protective services. It also provides funding aimed at child maltreatment prevention, assessment, and treatment.

¹⁴ CBCAP, which is a part of CAPTA, provides formula grants to states for child abuse prevention work carried out by community-based organizations.

¹⁵ The Children's Justice Act provides formula grants to eligible states from the national Crime Victims Fund to support improvements in investigating and prosecuting child maltreatment cases.

¹⁶ The Adoption Opportunities program provides competitive grants to states and other entities to promote adoption, remove barriers to adoption, provide post-adoption support to families, and provide other related activities.

¹⁷ Adoption and Legal Guardianship Incentive Payments provide incentive payments to states to encourage more adoptions and legal guardianships from foster care. Incentive payments are provided when a state improves its rate of adoptions and guardianships (in general and for older children).

¹⁸ MIECHV provides formula funds and competitive grants to fund home visiting programs to help improve outcomes for at-risk children. Some home visiting models can help reduce child abuse and neglect and promote the healthy development of children.

¹⁹ FFTA was signed in 2019 to help states during the early implementation of the Family First Act. The law provides \$500 million in one-time funding that could be spent by states (1) on any allowable Title IV-B activities, (2) to support implementation of the Family First Prevention Services Act, and (3) for former Title IV-E waiver states on activities formerly approved under their waiver.

²⁰ Coronavirus State and Local Fiscal Recovery Funds are funds available to state, local, territorial, and Tribal governments through the American Rescue Plan Act (ARPA) of 2021.

²¹ Idaho did not participate in the SFYs 2018 and 2020 surveys, so their expenditure data for those years are missing.

²² Most states, including Idaho, were able to provide only approximations for how their funds were spent. Totals may not equal 100% due to rounding.

²³ Most states, including Idaho, were able to provide only approximations for how their funds were spent. Totals may not equal 100% due to rounding.
